

ULTIFRESH
anti-bacterial & anti-odor

ABOUT ULTIFRESH

Ultifresh is a patented fabric technology that kills 99.94% bacteria permanently. The anti-bacterial & anti-odor feature can be integrated into any fabrics without affecting the outlook and the hand feel of the apparel.

BENEFITS OF ULTIFRESH

Ultifresh products are designed with copper's anti-microbial properties, allowing it to self sterilize. It can also prevent bacteria growth, making it a safer apparel for everyone.

ANTI ODOR

Ultifresh technology eliminates odor causing germs on the fabric itself, leaving the wearer fresh all day long.

INCREASED DURABILITY

Ultifresh prevents microbes from living on the apparel. Thus, it increases the longevity of the apparel, resulting into lesser textile wastage each year.

ANTI BACTERIAL

We come into contact with thousand of unseen bacteria everyday. Ultifresh fabric solution kills bacteria minutes upon contact.

SAVES WATER

Ultifresh apparels require lesser wash cycle and water usage up to 75%! This unique feature allows the wearer to save water without compromising safety.

COST SAVING

Ultifresh lowers the turnover of uniforms and apparels due to its durability, which allows wearer to wear longer without washing.
